

TTT  
"Taranis Toulouse Treaty"  
Agreement IX

Innovation partnership when there is a need to purchase a good or service that is still not available on the market under European law.

IN RELATION TO COLLEGE GREEN PLAZA, DUBLIN, IRELAND

&

DUBLIN METROLINK, DUBLIN, IRELAND

*"I don't know a single person that would not support a removable flexible playground for children with cafe seating in Foster Place in front a former armory with the option to retain some cobblestones or give an opportunity for an Australian designer to present some ideas based on a love story"*

## A1. Schedule of Intellectual property :

The intellectual property this schedule is of a general flexible nature and is unique in concept it may comprise of parts or elements or any combination thereof.

1. Concept designs for a mostly green in colour metro station this could include a surface, floor, ceiling, wall or parts and combinations thereof. This would include options for Green Connemara Marble, Green Concrete, Green surfaces, Planting, Painting, Materials and other surfaces in any and all combinations in Ireland. With a preference for St Stephens Green.

### *“A green destiny and future”*

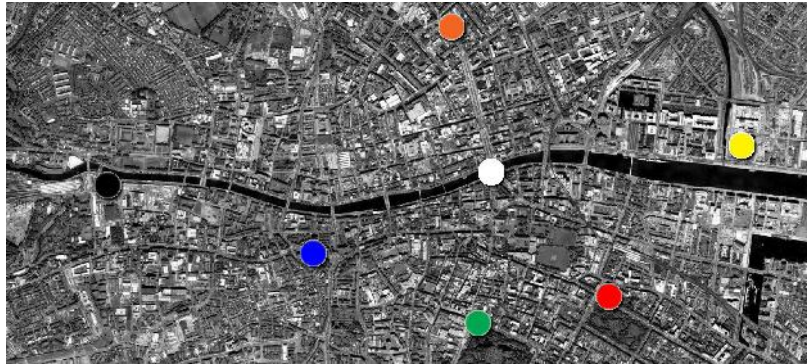

2. Concept designs for a metro station based general on the Book of Kells which could also function as a library with printed copies of some books chained to some of the walls.

### *“An underground history lesson and library”*

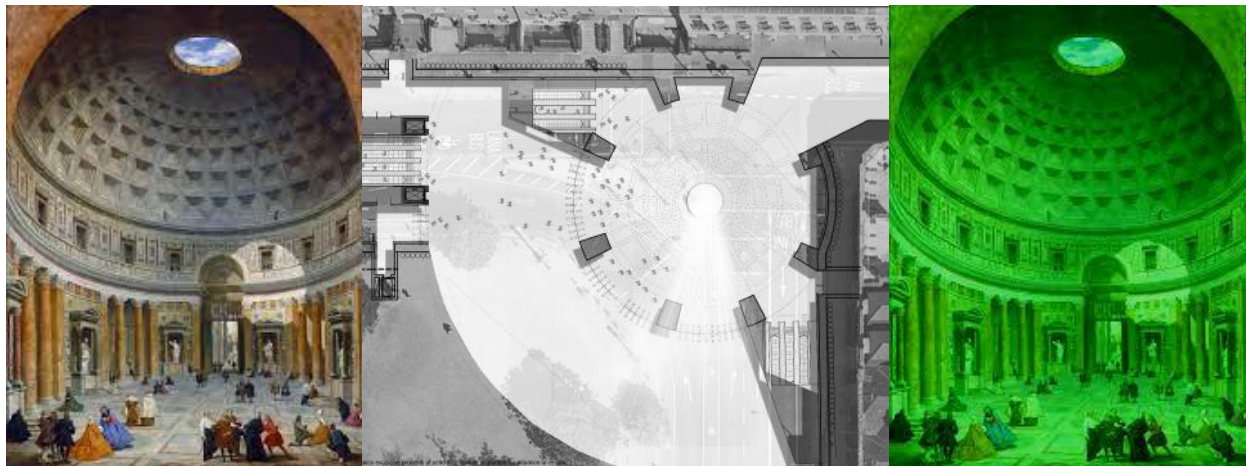

3. The concept of a colour coded array of stations. Station locations and combinations can change but the ability to catch a transport system through the colours of the Irish flag from Dublin International Airport to St Stephens Green.

*“Ireland may be dark and grey but it has a colourful heart”*

4. A train/metro underground station foyer based on a circle ideally like the Pantheon, Rome ideally in or close to St Stephens Green potentially also the north east corner.

*“An enchanting encounter”*

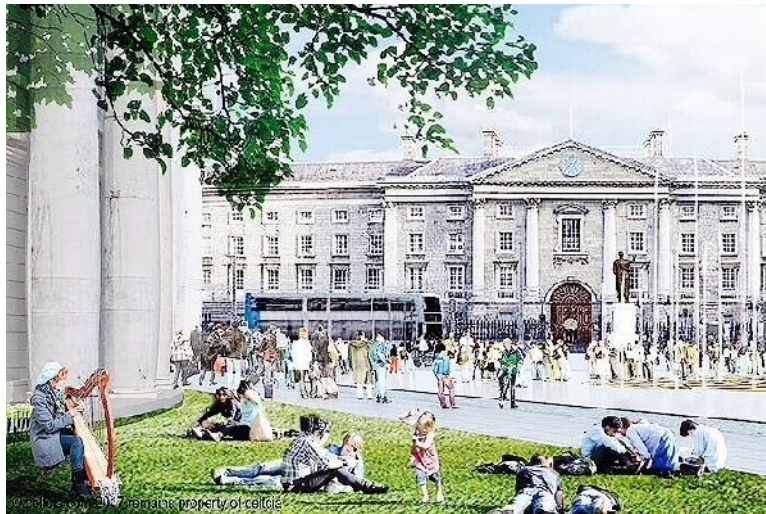

5. Additional optionally flexible platform layout for St Stephens Green East.

*“The longest Arc of Ireland”*
